LEDMASTER STICK

32KHZ FLICKER FREE PWM

12/24V COMPATIBLE

3,0A PER CHANNEL

TW TUNABLE WHITE

LEDMASTER STICK is a high quality dimmer, created to control LED lightings for cinema and broadcasting.

LEDMASTER STICK is allowing you to :

- pilot your LED strips, light bulb, MR16, AR111 between 12VDC and 24VDC.
- precisely adjust the CCT between «tungsten» and «daylight».
- softly vary your light intensity.
- film in high speed without any flicker.

The steel box embedded the best of EXALUX' technology as the PWM high frequency and allows a soft dimming which is totally Flicker Free.

MAIN FEATURES

- ▶ 1 «Daylight» channel + 1 «Tungsten» channel
- ▶ Digital setting of the color temperature
- ▶ Digital setting of the light intensity
- ▶ Totally «flicker free» thanks to the PWM technology
- ▶ PWM with a phase shift
- ▶ Backup on the CCT/Brightness
- ▶ XLR4 PTS Input and Output

GENERAL FEATURES

Technology:	PWM «low side» with a phase shift
PWM frequency:	32Khz
Steps:	1500 steps
Channels:	2
Control Modes:	Tunable White (CCT Brigh)
Input:	XLR 4 pts male
Output:	XLR 4 pts female
Norms:	CE, RoHS
Warranty:	2 years

ELECTRIC FEATURES

Voltage Input:	5VDC to 24VDC
Input Power:	6A max
Power per channel:	3A per channel

MECHANICAL FEATURES

Box:	Steel
Size:	122x42x42mm
Weight:	200g
Protection class:	IP20
